Tom Parker

Brian Pierce

Garrit Shuffstall

Susan Halbert, Nat'l 4-H Council

Tosh Konya, Honda

Glen Myers, 4-H

Russ Webber, National 4-H Council

Ben Wood, National 4-H Council

### Summary of Meeting:

The meeting had been requested by the National 4-H Council to provide an opportunity for the National 4-H Youth OHV Vision Team to meet with me to discuss ATV engineering, and other issues that were raised at CPSC's ATV Forum.

The students asked questions about the format and issues raised in the ATV forum. Principally, they questioned whether their contribution was meaningful or would be ignored. I assured them that their statements were as much a part of the record as anyone else's, and that it was important for them to state their position when public policy issues were being discussed in an open forum. The students questioned the extent of our knowledge of realistic ATV use. I gave a detailed slide presentation of the engineering test and analysis work done for the ATV Task Force. At the end of the day, the students acknowledged that they had had no idea of the extent of work CPSC had done, and were impressed that we did understand the vehicles.
